

The Effect of Maintenance Treatment with Erdosteine on Exacerbation Treatment and Health Status in Patients with COPD: A Post-Hoc Analysis of the RESTORE Dataset [Corrigendum]

Calverley PMA, Papi A, Page C, et al. 2022;17:1909–1920.

The authors wish to correct Figure 1 on page 1912 after it came to their attention an error had been made in the second box of the last row (moderate-to-severe exacerbations), the correct number is 7 not 36.

The corrected Figure 1 is shown below:

The authors affirm that this error does not affect the results, discussion, and conclusions of the reported study and apologize for any inconvenience caused to the readers.

Publish your work in this journal

The International Journal of COPD is an international, peer-reviewed journal of therapeutics and pharmacology focusing on concise rapid reporting of clinical studies and reviews in COPD. Special focus is given to the pathophysiological processes underlying the disease, intervention programs, patient focused education, and self management protocols. This journal is indexed on PubMed Central, MedLine and CAS. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
