

RETRACTION

## MicroRNA-579-3p Exerts Neuroprotective Effects Against Ischemic Stroke via Anti-Inflammation and Anti-Apoptosis [Retraction]

Jia J, Cui Y, Tan Z, Ma W, Jiang Y. *Neuropsychiatr Dis Treat.* 2020;16:1229–1238.

The Editor has determined the findings are no longer valid and has requested for the paper to be retracted.

The Editor and Publisher of *Neuropsychiatric Disease and Treatment* wish to retract the published article.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The journal was notified by the Editor of *Metabolic Brain Disease* of a submission they received from another author group which had significant overlap with the paper published in *Neuropsychiatric Disease and Treatment*. The authors of the *Neuropsychiatric Disease and Treatment* paper could not be contacted for an explanation.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Neuropsychiatric Disease and Treatment

Dovepress

### Publish your work in this journal

Neuropsychiatric Disease and Treatment is an international, peer-reviewed journal of clinical therapeutics and pharmacology focusing on concise rapid reporting of clinical or pre-clinical studies on a range of neuropsychiatric and neurological disorders. This journal is indexed on PubMed Central, the ‘PscINFO’ database and CAS, and

is the official journal of The International Neuropsychiatric Association (INA). The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
