

Predictive Value of Serum Cholic Acid and Lithocholic Acid for the Diagnosis in an Intrahepatic Cholestasis of Pregnancy Population with High Levels of Total Bile Acids and the Correlation with Placental Hypoxia-Inducible Factor-1 α [Corrigendum]

Cheng CY, Zeng GY, Wang T, et al. *Int J Womens Health*. 2022;14:687–696.

The authors have advised that the funding statement on page 694 is incorrect. The text “Dongguan Social Science and Technology Development (Key) Project in 2019. (Project No. 201950715028172)” should read “Dongguan Social Science and Technology Development (Key) Project in 2019 (Project No. 201950715028173)”.

The authors apologize for this error.

Publish your work in this journal

The International Journal of Women's Health is an international, peer-reviewed open-access journal publishing original research, reports, editorials, reviews and commentaries on all aspects of women's healthcare including gynecology, obstetrics, and breast cancer. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use.
