

Surface-enhanced Raman spectroscopy of blood serum based on gold nanoparticles for tumor stages detection and histologic grades classification of oral squamous cell carcinoma [corrigendum]

Xue L, Yan B, Li Y, Tan Y, Luo X, Wang M. *Int J Nanomedicine*. 2018;13:4977–4986.

On page 4985, in the Acknowledgment section, the grant number of National Natural Science Foundation of China was incorrectly listed. It should be as follows:

This study was supported by the National Natural Science Foundation of China (grant no 81502584).

Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine,

Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
