CORRIGENDUM

Effects of Creative Expression Therapy for Older Adults with Mild Cognitive Impairment at Risk of Alzheimer's Disease: A Randomized Controlled Clinical Trial [Corrigendum]

Zhao J, Li H, Lin R, Wei Y, Yang A. Clin Interv Aging. 2018;13:1313-1320.

Errors in Table 2 on page 1317 were identified by our readers and the authors have provided corrections as follows.

Table 2 caption, the text "Outcome at baseline, postintervention, and 3 months follow-up" should read "Outcome at baseline, postintervention, and 6 months follow-up".

Table 2, Postintervention section, P-Value (group) column, CVAVLT Delay recall row, the text "0.026" should read "0.012", which was consistent data with the main text.

Table 2, Follow-up section, P-Value (group) column, CVAVLT Delay recall row, the text "0.345" should read "0.025", which was consistent data with the main text.

Table 2, Follow-up section, P-Value (group) column, MSQ row, the text "<0.001" should read "0.008", which was consistent data with the main text.

Publish your work in this journal

Clinical Interventions in Aging is an international, peer-reviewed journal focusing on evidence-based reports on the value or lack thereof of treatments intended to prevent or delay the onset of maladaptive correlates of aging in human beings. This journal is indexed on PubMed Central, MedLine, CAS, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http://www.dovepress.com/testimonials.php to read real quotes from published authors.
