### RETRACTION

# Downregulation of IncRNA ANRIL Suppresses Growth and Metastasis in Human Osteosarcoma Cells [Retraction]

Guan H, Mei Y, Mi Y, et al. Onco Targets Ther. 2018;11:4893-4899.

We, the Editor and Publisher of the journal OncoTargets and Therapy have retracted the published article.

Following publication of the article, concerns were raised about the duplication of images from Figure 4 with images from an unrelated article. Specifically,

- The images for Figure 4B, NC and si-ANRIL, have been duplicated with images for Figure 2C, NC and miR-183, 48h, respectively from Sun X, Xu Y, Zhang S, et al. (2018). MicroRNA-183 suppresses the vitality, invasion and migration of human osteosarcoma cells by targeting metastasis-associated protein 110.3892/etm.2021.10947. *Experimental and Therapeutic Medicine*. 2018;15:5058-5064. https://doi.org/10.3892/etm.2018.6068.
- In addition, the images for Figure 4A, NC and si-ANRIL, 0h and 4A, Blank and NC, 12h, have been duplicated.

The corresponding author did not respond to our queries and was unable to provide a satisfactory explanation for how the images came to be duplicated or provide satisfactory original data for the study. As verifying the validity of published work is core to the integrity of the scholarly record, the Publisher and Editor requested to retract the article and the corresponding author was notified of this.

We have been informed in our decision-making by our editorial policies and COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as "Retracted".

## Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http://www.dovepress.com/testimonials.php to read real quotes from published authors.
