

Long Noncoding RNA UCA1 Accelerates Nasopharyngeal Carcinoma Cell Progression by Modulating miR-124-3p/ITGB1 Axis [Retraction]

Liu C, Zhang H, Liu H. *Onco Targets Ther.* 2019;12:8455–8466.

At the authors request, the Editor and Publisher of *OncoTargets and Therapy* wish to retract the published article. The authors have informed the journal that they cannot provide any original data relating to their study and can no longer verify the findings as reported.

The Editor has agreed with the request to retract the article.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
