Downregulation of Circ_0071589 Suppresses Cisplatin Resistance in Colorectal Cancer by Regulating the MiR-526b-3p/KLF12 Axis [Retraction]

Zhang W, Wang Z, Cai G, Huang P. *Cancer Manag Res.* 2021;13:2717-2731.

We, the Editors and Publisher of *Cancer Management and Research*, have retracted the following article.

Since publication, concerns have been raised about the integrity of the data in the article. When approached for an explanation, the authors did not respond to our queries, nor did they provide original data for their study. As verifying the validity of the published work is core to the integrity of the scholarly record, we are therefore retracting the article and the authors were notified of this.

We have been informed in our decision-making by our editorial policies and COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as 'Retracted'.
