

A**B**

Supplementary Figure 1 mRNA expression of gene coding asprosin, and its correlation with clinical outcomes. (A) mRNA expression of gene coding for asprosin (FBN1) in kidney tissue from DKD patients, $P < 0.001$ compared with healthy control. (B) Correlations of FBN1 expression and clinical outcomes including GFR ($r^2 = 0.591$, $P < 0.001$) and serum creatinine ($r^2 = 0.527$, $P = 0.008$). Data were acquired from Nephroseq dataset (nephroseq.org).
