

CORRIGENDUM

Characteristics, treatment patterns, and unmet needs of Japanese patients with atrial fibrillation [Corrigendum]

Koretsune Y, Rossi B, Iwamoto K, et al. *Research Reports in Clinical Cardiology*. 2013;4:97–105.

On page 97, Background section “In Japan, AF is estimated to be present in 0.65% of the population.”²³ should read “In Japan, AF is estimated to be present in 0.56% of the population.”²³

On page 100, second column, first paragraph, line seven, the text “(all $P < 0.0001$)” should read “(all $P < 0.001$)”.

Page 102, Table 3, it should be noted that the percentages of AF episodes reflect only those who had non-missing data (N=549).

Page 102, Figure 2, the CHADS₂ percentage for those with a risk score of 0 should read “46.19%” instead of “49.19%”.
