

RETRACTION

## Vitamin D Reduces Falls and Hip Fractures in Vascular Parkinsonism but Not in Parkinson's Disease [Retraction]

Sato Y, Iwamoto J, Honda Y, Amano N. *Ther Clin Risk Manag.* 2013;9:171–176.

The Editor and Publisher of *Therapeutics and Clinical Risk Management* wish to retract the published article. Following publication of the Expression of Concern, this article has been retracted due to acknowledgement of allegations of scientific misconduct regarding data integrity, inappropriate authorship, duplicate reporting, ethical oversight, and data fabrication. In addition, it has been recognised that numerous other publications from this research group have also been retracted.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Therapeutics and Clinical Risk Management

Dovepress

### Publish your work in this journal

Therapeutics and Clinical Risk Management is an international, peer-reviewed journal of clinical therapeutics and risk management, focusing on concise rapid reporting of clinical studies in all therapeutic areas, outcomes, safety, and programs for the effective, safe, and sustained use of medicines. This journal is indexed on PubMed Central, CAS, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
