

Navigating Personal and Professional Development Through Social Media in Ophthalmology [Corrigendum]

He B, Tanya SM, Costello F, Kherani F, Shamie N, Zhu D. *Clin Ophthalmol*. 2022;16:2263–2274.

Page 2265, Results, Demographic Characteristics section, line five, the text “approximately half had children (49%)” should read “approximately three-quarters had children (73%)”.

Page 2265, Results, Characteristics of Social Media Usage section, first sentence, the text “The overwhelming majority of respondents (94%) reported having a professional social media account with the top three most popular platforms being Instagram (25.2%), LinkedIn (22.6%), and Facebook (19.6%)” should read “The overwhelming majority of respondents (86%) reported having a professional social media account with the top three most popular platforms being Instagram (57.7%), LinkedIn (51.7%), and Facebook (45.0%)”.

Table 1 on pages 2266 and 2267, the percentages for the “Number of children” and “Professional social media platforms*” characteristics are incorrect. The correct [Table 1](#) is shown below.

Table 1 Participant Demographics. Various Demographic Characteristics of Survey Participants (n=149)

Characteristics	Survey Participants n (%)
Country	
Canada	6 (4.0)
USA	111 (74.5)
Other	32 (21.5)
Gender	
Men	48 (32.2)
Women	100 (67.1)
Nonbinary	1 (0.7)
Age	
Under 25	3 (2.0)
25–35	84 (56.4)
36–45	35 (23.5)
46–55	13 (8.7)
56–65	12 (8.1)
66+	2 (1.3)
Ethnicity	
White	78 (52.4)
Black/African American	1 (0.7)
American Indian or Alaska Native	0 (0.0)
Asian	48 (32.2)
Non-white Hispanic/Latino	7 (4.7)
Native Hawaiian or Pacific Islander	0 (0.0)
Other	15 (10.1)

(Continued)

Table 1 (Continued).

Characteristics	Survey Participants n (%)
Career stage	
Resident	37 (24.8)
Fellow	16 (10.7)
0–5 years in practice	38 (25.5)
6–10 years in practice	20 (13.4)
11–20 years in practice	19 (12.8)
20+ years in practice	19 (12.8)
Type of practice	
Academic	34 (22.8)
Private solo	10 (6.7)
Private group	53 (35.6)
Hospital based	9 (6.0)
Large HMO based	3 (2.0)
Not applicable	35 (23.5)
Other	5 (3.4)
Subspecialty	
In training	38 (25.5)
Comprehensive	17 (11.4)
Anterior segment, cornea, and refractive	38 (25.5)
Glaucoma	15 (10.1)
Low vision rehabilitation	1 (0.7)
Neuro-ophthalmology	2 (1.3)
Ocular oncology	0 (0.0)
Oculoplastics	13 (8.7)
Pediatric ophthalmology	6 (4.0)
Retina/uveitis	19 (12.8)
Marital status	
Married	103 (69.1)
Divorced	6 (4.0)
Never married	40 (26.9)
Widowed	0 (0.0)
Number of children	
Zero	20 (27.0)
One	30 (40.5)
Two	15 (20.3)
Three	7 (9.5)
Four	1 (1.35)
Five	1 (1.35)
Professional social media platforms*	
Instagram	86 (57.7)
LinkedIn	77 (51.7)
Facebook	67 (45.0)
Twitter	53 (35.6)
YouTube	32 (21.5)
Other	5 (3.4)
None	21 (14.1)

(Continued)

Table I (Continued).

Characteristics	Survey Participants n (%)
Time spent on social media	
Less than 1 hour per week	6 (4.0)
Less than 1 hour per day	48 (32.2)
1–2 hours daily	66 (44.3)
3–4 hours daily	23 (15.4)
4+ hours daily	6 (4.0)

Notes: *Total exceeds 149 as respondents were directed to select all that apply; data reflects tallied responses.

The authors apologize for these errors.
