

Asthma and Susceptibility to COVID-19 in Australian Children During Alpha, Delta and Omicron Waves of the COVID-19 Pandemic [Corrigendum]

Chan M, Owens L, Gray ML, Selvadurai H, Jaffe A, Homaira N. *J Asthma Allergy*. 2023;16:1139–1155.

The authors have advised that on page 1139, “Results” section in the abstract, first sentence should read from “Of the 18,932 children with polymerase chain reaction (PCR) confirmed COVID-19 who attended SCHN, 60% received their care during delta wave, and 5.41% (n = 913) had prior diagnosis of asthma” to “Of the 18,932 children with polymerase chain reaction (PCR) confirmed COVID-19 who attended SCHN, 60% received their care during delta wave, and 5.41% (n = 1025) had prior diagnosis of asthma” and on page 1141, “Results” section, second paragraph, first sentence should read from “Of the 18,932 children with COVID-19, 913 (5.41%) were asthmatic (Table 1).” to “Of the 18,932 children with COVID-19, 1025 (5.41%) were asthmatic (Table 1).”

The authors apologize for these errors.

Publish your work in this journal

The Journal of Asthma and Allergy is an international, peer-reviewed open-access journal publishing original research, reports, editorials and commentaries on the following topics: Asthma; Pulmonary physiology; Asthma related clinical health; Clinical immunology and the immunological basis of disease; Pharmacological interventions and new therapies. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use.
